₹

Budget Mantra

India's AI-first personal finance companion

🚀 Version 2.0 | 💡 Seed Round | 🇮🇳 Built for Bharat

THE PROBLEM

India has 1.4 billion people. Almost none have a financial plan.

3%

Have a financial advisor

97% of Indians navigate money completely alone — no guidance, no plan.

78%

Live paycheck to paycheck

Middle-class Indians earn more than ever — yet save less than ever.

0

Apps built for Indian money

Hand loans, chit funds, gold savings, UPI splits — ignored by every Western app.

₹12L

Average annual EMI burden

Indians juggle home loans, car EMIs, personal loans — with zero visibility.

THE SOLUTION

Meet Chanakya — Your AI money advisor

Budget Mantra is the first personal finance app built ground-up for Indians — with a conversational AI that understands ₹ bills, EMIs, gold, hand loans, UPI, and the way real Indian families manage money.

Web App | iOS & Android | Chat-first

🤖

Chanakya AI

Chat to add expenses, set goals, get advice. No forms.

📊

Smart Budget

Auto-categorised spending with live budget tracking.

🏦

EMI Manager

All loans in one place with payoff timeline.

✈️

Trip Planner

AI itinerary + bill splitting for group travel.

🥇

Gold & Silver

Track physical holdings with live MCX prices.

🤝

Hand Loans

Track money lent/borrowed among friends & family.

PRODUCT

Everything Indians need, nothing they don't.

MARKET OPPORTUNITY

A $30B market with no dominant player.

500M+

Smartphone users in India

Growing 15% YoY. Every one of them manages money on their phone.

$30B

Indian fintech market size

Growing at 20% CAGR. Personal finance is the largest underpenetrated segment.

280M

Millennials in peak earning years

Earning more, spending more, saving less — and desperately needing guidance.

🇮🇳 Mint shut down India ops

📉 Walnut discontinued

🔒 Paytm Money = trading only

✅ No full-stack personal finance app

TRACTION

Live. Shipped. Growing.

🚀 VERSION 2.0 — JUST SHIPPED

- **Web app** live at budgetmantra.in
- **iOS + Android** apps built with React Native/Expo
- **Chanakya AI** powered by Claude (Anthropic)
- **25+ features**: EMIs, Goals, Investments, Gold, Trips, FIRE, Statements

⚙️ TECHNOLOGY

- **FastAPI backend** on Railway with auto-deploy
- **MongoDB Atlas** — zero-ops, scales to millions
- **React + React Native** — one team, two platforms
- **UPI Statement import** — PDF & Excel parsing

💡 AI CAPABILITIES

- Natural language expense logging in seconds
- AI trip itinerary with real flight prices
- Context-aware financial advice using full user data
- Smart duplicate detection on bank imports

🇮🇳 INDIA-SPECIFIC FEATURES

- **Hand loans** — informal lending between friends/family
- **Gold & Silver** — live MCX rates, physical holding tracker
- **UPI statement import** — parse bank PDFs automatically
- **Family Circle** — shared finance for households

BUSINESS MODEL

Three paths to revenue.

01

Pro Subscriptions

Free tier covers budgeting basics. Pro unlocks unlimited AI, investments, group expenses, FIRE calculator and advanced analytics.

₹199 / month
or ₹1,499 / year

02

B2B White-label

Banks and NBFCs license Budget Mantra as a branded personal finance tool for their customers — increasing stickiness and cross-sell.

₹10L+ / client
annual SaaS contract

03

Contextual Offers

When users signal intent (buying a car, planning a trip, taking a loan) we surface relevant financial products — insurance, credit cards, SIPs.

30–40% commission
on referred products

WHY NOW

The stars are aligned for Budget Mantra.

01 **UPI created a financial data trail for 400M+ Indians**

Every transaction leaves a digital footprint. Budget Mantra turns that data into personalised insight — finally possible at scale.

02 **LLMs make conversational finance viable for the first time**

Claude-class models mean natural language UX is finally good enough — a chat-first finance app actually works and delights users.

03 **Competitors left the field — Mint, Walnut, Money View pivoted away**

The last generation of personal finance apps either shut down or shifted to lending. There is a clear gap for a modern, AI-native product.

04 **India's middle class grew 50% in 5 years and is underserved**

Rising incomes + complex financial lives + zero guidance = enormous latent demand for exactly what Budget Mantra offers.

UNIT ECONOMICS & SCALE — AWS INFRASTRUCTURE

Lean at launch. Profitable at scale.

COST COMPONENT	LAUNCH (0–10K MAU)	GROWTH (100K MAU)	SCALE (1M MAU)
☁️ AWS Compute (EC2 / ECS Fargate)	₹2,500	₹12,500	₹66,500
🗄️ MongoDB Atlas	₹0 (M0 free)	₹15,720	₹1,12,320
🤖 Claude AI (Haiku + prompt caching)	₹12,500	₹1,49,760	₹14,97,600
📲 WhatsApp (Twilio) + CDN + misc	₹1,245	₹20,800	₹1,83,100
Total Monthly Burn	**₹16,245**	**₹1,98,780**	**₹18,59,520**
Revenue @ 5% Pro conversion	**₹9,950**	**₹99,500**	**₹99,50,000**
Gross Margin	ramp phase	~50%	~81%

AI COST ADVANTAGE

Claude prompt caching reduces input costs by **~60%**. At 1M MAU uncached = ₹46L/mo → caching brings it to ₹15L/mo.

BREAK-EVEN POINT

Launch breaks even at just **82 Pro subscribers** @ ₹199/mo. At 10K MAU that's 0.82% conversion.

AWS MIGRATION

Move to AWS App Runner + RDS + ElastiCache at 100K users for **HA, auto-scaling & B2B compliance**.

PRE-SEED ROUND

₹10 Lakh

Everything is already built and live.
This funding is for growth, not survival.

50%	**Marketing & User Acquisition** ₹5,00,000 — influencer seeding, ASO, paid social
20%	**Feature Development** ₹2,00,000 — freelance devs, UX, security audit
9.4%	**12-month AWS Operations** ₹93,648 — compute, DB, AI API, WhatsApp, CDN
1.5%	**App Store Publishing** ₹14,900 — Google Play (₹2,100) + Apple Dev (₹8,300/yr)
19.1%	**Buffer / Legal / Compliance** ₹1,91,452 — scaling headroom, legal, compliance

MILESTONES WITH ₹10L

- Publish iOS + Android apps to stores
- Reach **10,000 registered users**
- First **200+ paying Pro subscribers**
- Migrate backend to AWS (auto-scale)
- First B2B white-label pilot conversation

BREAK-EVEN MATH

Monthly burn at launch = **₹16,245**
82 Pro users × ₹199/mo = **₹16,318/mo** → break-even
That's **0.82%** conversion at 10K users.

ALTERNATIVE REVENUE MODEL

What if Budget Mantra stays completely free?

🤝

Contextual Financial Offers

When a user's EMI burden hits 40%+ of income, surface the right loan refinancing offer. When they hit a savings goal, suggest an FD or SIP. Intent-matched, never intrusive.

REVENUE PER ACTION

₹200–₹1,500 per referral

30–40% commission from banks, NBFCs

🏦

B2B White-Label API

Banks and NBFCs pay to embed Budget Mantra's AI financial advisor inside their own app. Users get the tool free; the bank pays the licence — proven Yodlee/Plaid model.

REVENUE PER CLIENT

₹5L–₹25L/yr SaaS licence

3 clients = ₹75L/yr — covers all ops

📊

Anonymised Data Insights

Aggregated, fully anonymised spending trends across cities, age groups, and income brackets — sold as market intelligence to FMCG brands and fintech researchers.

REVENUE PER REPORT

₹2L–₹10L/report custom research

Viable at 100K+ users. Zero marginal cost.

FULLY-FREE MODEL AT 1M USERS — UNIT ECONOMICS

Even if **only 2% of users click one financial offer per year** at avg ₹500 commission — that's 20,000 conversions × ₹500 = **₹1 Cr/yr** from a single stream, covering all operating costs with zero subscription friction.

₹1 Cr

annual rev @ 2% offer CTR
no subscriptions needed
